

Term 3 dates (Rossiter Pavilion)

2 Aug, 9 Aug, 16 Aug, 23 Aug, 30 Aug, 6 Sept

Hall hire contribution \$40/\$48 per family.

BEGINNER SCIENCE (Yrs Kindy-Yr2)

Time: 09:30-10:15

Instructor: Sarah Curran-Ragan

(Week 3 volunteer Monique Stone)

Cost: \$76/student HBLN, \$91.20/student non-HBLN

BEGINNER SCIENCE (Kindy-Yr2)

BIOLOGY - FORM AND FUNCTION

This term we will investigate that living things have a variety of external features and must live in places where their needs are met.

1. PARTS OF A SUNFLOWER In this activity students make their own sunflower to learn the parts of plants and their purpose.

2. DYE CELERY

Have you ever wondered what those small trees are nestled among the fruit and vegetables in the shop? They may be celery. In this activity students experiment with celery and food colouring to learn about food nutrition.

****3. WHAT AM I?**

In this interactive game, students investigate animals from a range of habitats and discuss the features that help them to move and eat.

****Please note Sarah is away during this week. Course materials will be given in week 2 for at home work, or if preferred during week 3 regular class time with Monique (Coordinator) supervising/answering questions.**

4. THIS OR THAT?

In this activity students will identify common characteristics of a range of animals and explore different ways of grouping them according to their similarities and differences.

Term 3 dates (Rossiter Pavilion)

2 Aug, 9 Aug, 16 Aug, 23 Aug, 30 Aug, 6 Sept

Hall hire contribution \$40/\$48 per family.

5. DESERT LAKE

Just like humans, animals rely on their environments to survive. In this activity students look at what happens when habitats change and living things can no longer have their needs met.

6.WHAT WOULD HAPPEN?

In this activity students investigate a Mini-beast and ask 'what would happen..?' to learn about the features that help these small but fierce animals to move and eat. Children create their own Minibeast and describe the features that allow it to eat and move through its habitat.

(ROUND 1)

Enrolments for current families will open Tues 22 June until Tues 29 June. Payment not required at the time of submission of the enrolment form. Invoices will be issued on 1 July.

(ROUND 2)

Any vacancies will be opened to new families from 1 July. All pmts due by Friday 16 July.

REFUNDS - Please note if classes are cancelled due to COVID-19 safety concerns then only 50% of the fee for the cancelled classes will be refunded to families. The remaining 50% will be used to cover the cost of the venue, instructors and consumables.
